ZOOM AUDIO TRANSCRIPTION

1
00:00:04.200 --> 00:00:06.170
Thank you for participating.

2
00:00:09.380 --> 00:00:29.890
I will be trying to understand a bit about how you log your memories with your family online, and what words and doesn't work for you and our value evaluating you in any way. There are no right or wrong answers With this. I hope to design my website to better search people like you, so please feel free to do things the way you would. Normally.

3
00:00:30.100 --> 00:00:46.650
we'll start off with some background questions and then move into doing some online searches and answering the questions it might help to think about. The last time you did this activity. and in the searches I will ask you to show me how you do things on the computer and ask you questions to better understand what you do.

4
00:00:46.830 --> 00:01:01.800
Please please feel free to say anything that comes to mind. You can talk about things you like, or just like I'll be recording your screen and your voice so I can go back and make sure I get everything right. I won't Use your name in connection with the recording or the results.

5
00:01:01.820 --> 00:01:06.940
Everything is completely confidential. How does that sound? Are you? And do you have any questions?

6
00:01:08.140 --> 00:01:09.090
Good?

7
00:01:11.040 --> 00:01:21.980
All right. So first we have some background questions. So could you tell me your name? And H. My name is Rosemary, Johann Sahara

8
00:01:22.200 --> 00:01:34.590
and I'm. 20 years old. Thanks. Okay. Could you tell me about what you're interested and passionate about? I'm. A music history and industry major. So I'm really like

9
00:01:34.600 --> 00:01:49.860
passionate about music. and also learning about the industry. because I know that as a
first-generation student, like especially someone pursuing the industry like

10
00:01:50.770 --> 00:01:55.000
it in previous experiences.

11
00:01:56.650 --> 00:02:08.289
It just felt like the only way to get into the industry was like being famous, or like having like a
really cool song, but like there's a lot of jobs. So i'm I'm like really passionate about learning
about

12
00:02:08.550 --> 00:02:21.030
other opportunities in the industry rather than just like being a famous singer. Nice? Okay. So do
you like to take pictures options? If so, why.

13
00:02:21.230 --> 00:02:24.640
I do like to take pictures often.

14
00:02:26.840 --> 00:02:28.910
I think it's just a really

15
00:02:30.830 --> 00:02:43.310
cool memento of the memories that was happening in a day, or just something cool, like I have a
lot of screenshots in my phone that I never delete. because it's either just like a good reminder
of something or

16
00:02:43.880 --> 00:02:56.550
they're funny. And but they take up my storage a lot. But yeah, I do like to take a lot of photos
very nice. And then another question is.

17
00:02:56.670 --> 00:02:59.290
How often do you spend time with your family?

18
00:03:02.440 --> 00:03:14.890
Not that often i'm in college. So yeah, oh, so I do like when there's great. I do try to spend most of my time like

19
00:03:16.400 --> 00:03:28.690
with my dad when I have a chance. I do have the habit of going out with my friends a lot, but I've been trying to do better and like spending time with my dad.

20
00:03:30.380 --> 00:03:46.320
my parents, I divorced. So that's why I try to late Have a good, familiar connection. Nice? Okay. So where do you usually use your computer? And what activities. Do you actually use it for?

21
00:03:48.210 --> 00:04:04.160
I use it a lot for canvas and school. I think the majority of where I use it is in the dorm or just somewhere, mainly in the dorm, because I know there's Wi-fi there, and there's a good connection

22
00:04:05.940 --> 00:04:11.760
or at home, because I have good wi-fi typically when i'm out at places

23
00:04:13.130 --> 00:04:23.240
that don't have. or that i'm unfamiliar with. I tend to just use my phone in the data, and then I that in turn like I don't use it for school. Okay?

24
00:04:24.270 --> 00:04:34.320
And the last question is, do you prefer physical photos or digital? And why? Well, that's kind of hard. I like

25
00:04:35.480 --> 00:04:43.760
digital. I think it's just more convenient, and you can share it easier with people like on Instagram and stuff.

26
00:04:45.020 --> 00:04:48.000
I do like taking like my

27
00:04:50.000 --> 00:05:05.490
we call it the disposable camera, the film camera like out. because I think those are really cute. but those like you only get one copy, and you can't really like show it to people. Right? Yeah. So

28
00:05:06.100 --> 00:05:13.320
it's just easier with digital and also to like you have your phone on you all the time. It's not like I'm gonna like.

29
00:05:14.360 --> 00:05:25.950
I have my phone on me on my person more frequently than I have, like the film camera. so i'll take photos on my phone. This so overall you prefer digital.

30
00:05:26.820 --> 00:05:37.360
I prefer digital, probably because of just the convenience. But I do like the the personal and like the keepsake feeling of like

31
00:05:38.380 --> 00:05:52.460
a film camera. I just think it's like really cute when you he's a film camera. Nice. Okay. So now we're going to go into some activities. So the first thing I'm going to have you do here

32
00:05:52.830 --> 00:06:03.300
is I'm going to have you sketch out just how you would personally organize like some sort of family memory and a scrap for a family album.

33
00:06:12.140 --> 00:06:17.730
It's okay. And if you could kind of like talk through your thought process that

34
00:06:19.810 --> 00:06:31.480
Well, you said a scrapbook. So facing the layout of a scrapbook. Thanks. And then

35
00:06:33.810 --> 00:06:49.580
these. Okay, okay. So I have it open on a random page and then. like no one's judging you on your sketch, I I would put like a little photo. There

36

00:06:50.370 --> 00:06:54.390
am I decorated my family.

37
00:06:55.710 --> 00:07:08.860
and then I also used to journal like over the summer. so I don't know if this counts. but I like.
would put receipts of like special days.

38
00:07:08.870 --> 00:07:20.020
I train to dance like when a right would go to that ability we take like train tickets. and then I'm
kind of a hoarder.

39
00:07:20.350 --> 00:07:24.290
so I keep like really cute wrapping

40
00:07:25.450 --> 00:07:28.600
of anything, especially like when I went out with Lily

41
00:07:30.330 --> 00:07:36.170
by stupid little things. Put that there. I taped it

42
00:07:38.970 --> 00:07:49.330
but photos with my family. But it's all just Lily, I feel like this kid, like family is just like really
general term like this pilot

43
00:07:49.620 --> 00:07:56.080
found family. You know it doesn't have to be like blood related. You can like refer to like pets and
things like that.

44
00:07:57.940 --> 00:08:08.410
Yeah. So I would like. I do have this album of my kinsay where it's kind of just like

45
00:08:09.870 --> 00:08:21.180
Insert a photo in like the specific slots, and you would describe it. That was this like a digital
album. No, it's a big book. Oh, yeah.

46
00:08:23.530 --> 00:08:38.870
yeah, I want the physical route, which is weird because I use mainly digital photos. But like, I just have yeah. like, if I have physical photos. I want to put them in a safe spot when they're on my phone. I just let them.

47
00:08:39.620 --> 00:08:52.930
But but yeah, I'd put like little photos of whatever. and then I decorate it with little like keepsites and mementos of like things that I appreciate.

48
00:08:54.120 --> 00:09:09.260
So like. What really matters to is kind of like personal aspect like you. Yeah, like receipts and like wrappers, things that are very like personal to you and like, really, directly to the memory. Yeah, because.

49
00:09:09.410 --> 00:09:24.750
like I said, i'm a hoarder, and I like I like assigned memories to like any specific little thing like I don't know. like I keep movie tickets. So I would put those in here

50
00:09:25.120 --> 00:09:27.090
and like what movie I saw.

51
00:09:30.380 --> 00:09:42.490
Yeah, I just feel like it's easy. It's easier for me to remember when I have those little things in the day like little. They're easy to remember little details when I have them in the book rather than just like

52
00:09:43.190 --> 00:09:56.100
a photo album, and you have to like, say which day it was like. I just feel like that's kind of just like putting your photos with storage. Why, I like to just put your mementos in there on the day

53
00:09:57.060 --> 00:10:01.020
it's nice. I like that. Good!

54
00:10:04.370 --> 00:10:17.090

So would you? Sorry? Just like that? All the question is like, Would you stay some sort of timestamp that kind of like takes away from like the personal aspect of a family memory like

55
00:10:17.510 --> 00:10:22.860
when you're organizing these photos like you wouldn't include some sort of timestamp, or

56
00:10:25.660 --> 00:10:32.650
recently you're like just in my past experience. I haven't put in any time stamps.

57
00:10:33.840 --> 00:10:44.240
I don't know if that's like a trend of it's just like because I keep more. I put more emphasis on what I put in. Hmm.

58
00:10:46.910 --> 00:10:58.390
Yeah, Like, I know my mom like when I when I give me like photos of me. she'll write the dates. and like what grade I was in. But I don't do that.

59
00:10:58.690 --> 00:11:00.120
I think because

60
00:11:02.020 --> 00:11:09.110
I don't know it was just kind of like in the moment. And you're like recording it. Yeah, it's kind of just like

61
00:11:11.350 --> 00:11:23.060
I really don't know that's would you consider doing it in the future, or like do you think it would be helpful to you like when you go back and access those photos

62
00:11:26.290 --> 00:11:27.090
me.

63
00:11:29.110 --> 00:11:33.000
I think it could be helpful. because

64

00:11:35.050 --> 00:11:49.180
right. I think I don't do it on physical because on digital photos the date's already there. so it's just like if I take a photo, and i'm out with friends. I'm like oh, it happened this day.

65
00:11:49.450 --> 00:12:01.160
and I just don't have like It's not like your first thought. Yeah, it's not like a routine of my like. If I develop my film photos Well, because okay.

66
00:12:01.410 --> 00:12:12.980
my my mom lived from the 80 S. And she was like my age during that time, and so they didn't have digital photos, so that was put like it's probably like her method of

67
00:12:13.450 --> 00:12:27.820
writing down the dates. but because I don't need to do that because I have a phone that tells me what day I took the photo. It doesn't come across my mind when I have a physical photo, and i'm like, oh, I need to write when this day was because obviously, like.

68
00:12:28.230 --> 00:12:40.940
I I use my film photos very sparingly. so it's like they can like one camera can last me like a year. so i'm like I really don't care about the dates when I developed the film by that.

69
00:12:42.000 --> 00:12:59.220
Yeah, that makes sense. I I feel like I could relate to that. Okay. So now we're going to move on to and online activity. So if you could, maybe open up Google and just share your screen.

70
00:13:03.280 --> 00:13:04.930
Okay.

71
00:13:07.940 --> 00:13:08.600
yes.

72
00:13:10.290 --> 00:13:11.520
okay.

73
00:13:12.770 --> 00:13:24.260

So what I would like you to do is so. You want to archive a lot of like your family photos, like their possessions, videos and work.

74
00:13:24.440 --> 00:13:35.090
I think my first question is before you start searching. Okay. just in your mind, like, where would you go to like Upload all this media like if you're not.

75
00:13:35.580 --> 00:13:47.880
or cut your photos. I'm really bad at uploading like I Haven't backed up my phone, and like almost a year. so would you say it was like you'd keep it in. I could leave it up to chance.

76
00:13:48.070 --> 00:13:59.300
not in a situation where maybe, like one day you're like, oh, like I want to upload this somewhere like once you I did. I did try goodle photos like Google Photos. Yeah.

77
00:13:59.950 --> 00:14:04.920
how is that? It was? It took a long time to upload my photos like.

78
00:14:06.010 --> 00:14:17.190
did it help you like Soy the photos in any way? Or was it just like upward? It was more so for me. The reason why I chose to use Google photos was one because that was like the only place

79
00:14:17.320 --> 00:14:31.020
that I've heard of. I heard it was free. I think I also heard somewhere that it had like unlimited storage. So I was like cool like. I can store my 4,000 photos in there because I take a like

80
00:14:31.120 --> 00:14:45.310
hydrogen. And heist White went to a lot of concerts, so I took a lot of videos, and those would eat at my storage, and I like I said i'm a hoarder. So I don't want to delete the photos of the videos, because i'm just like, oh, what if I like? Have this

81
00:14:45.720 --> 00:15:01.670
one memory? I'm like, I want to go back, and I don't have it. So I was like, okay. I'll do Google photos. but it just took a long time, and I kind of like didn't keep up with it. It didn't sort my photos, though, at all like it. Kind of just put them up, and like

82
00:15:01.860 --> 00:15:12.510
randomized order, which I didn't mind, because I was just like the main priority in my mind was like, okay, at least there's somewhere safe, you know, like at least I know that

83
00:15:12.960 --> 00:15:27.720
if something does happen to my my actual photo album, I have up somewhere so like your first priority, like when it comes like making like an archive. Some sort would be like at least like they're safe. Like safety would be yeah.

84
00:15:27.750 --> 00:15:29.600
like I really do like

85
00:15:31.150 --> 00:15:46.930
I don't think Google Photos had some sort of confirmation that they were uploaded. I do that if I like. locked out of the app before I could confirm. but my main priority, when I want to like archive photos or backup photos is like.

86
00:15:47.350 --> 00:16:02.860
I know for sure that they're saved, you know, like this. and it's really hard to delete them all right, then. So now we're going to go over to the search and then. Now I want you to look up a website

87
00:16:02.930 --> 00:16:12.810
where you can start some sort of digital like family archive. You can search up any phrase you like and just click on a site that looks interesting to you.

88
00:16:20.480 --> 00:16:22.230
Okay? Oh.

89
00:16:27.440 --> 00:16:30.150
you can click on the same different

90
00:16:34.330 --> 00:16:36.180
nice that you can.

91
00:16:37.800 --> 00:16:43.490
This is cool, but this is more like. just like the physical. You know

92
00:17:04.550 --> 00:17:06.560
this truck box.

93
00:17:42.530 --> 00:17:57.960
Thank you. Would you say you don't want to explore the site? This i'm not. Yeah. The So now what i'm going to have you do is. Try and find some samples.

94
00:17:58.570 --> 00:18:02.260
and just tell me what you like and what you don't like.

95
00:18:08.520 --> 00:18:12.740
just like in the pictures of Okay. you can look through

96
00:18:13.830 --> 00:18:14.560
right.

97
00:18:20.540 --> 00:18:30.720
I like how it gives tips. Oh. like you can upload for it. They have an app. It is nice.

98
00:18:32.220 --> 00:18:33.760
oh.

99
00:18:37.840 --> 00:18:51.270
just like more specifically like like the photons they provide there. So like, okay, feel like the way they organized it. you know, with that does that look like something you would use?

100
00:18:51.440 --> 00:19:02.850
Is there something you don't like. I mean, I suppose, on there like. What kind of does it give you this to sound really weird? But I trust it just because it reminds me of like

101

00:19:02.980 --> 00:19:15.020
Cvs like I go, and because when I do it like print out photos, i'll go to Cvs, and I think they use like something similar to this.

102
00:19:17.460 --> 00:19:25.480
But yeah, I mean, they look like normal stock images. so they seem welcoming and homely.

103
00:19:27.280 --> 00:19:38.310
Are there like maybe additional things you want to like. incorporate in an online. not necessarily like a but no elbow, but just like an online album

104
00:19:38.450 --> 00:19:43.190
of any sorts, it could be like a collection of That's what we do.

105
00:19:46.790 --> 00:19:57.970
New waste questions. Are there like any additional options you would like to see in this website? Well, it seems more like it's

106
00:20:00.640 --> 00:20:01.570
Let me see

107
00:20:03.670 --> 00:20:09.760
it just kind of seems more like a place to buy prints of your photos.

108
00:20:11.070 --> 00:20:13.180
which i'm not sure if i'm

109
00:20:14.420 --> 00:20:27.890
wanting that like if I was doing anything like icloud or something. I would just want to like select which photos I want to be saved. which would also include videos and stuff like that.

110
00:20:33.080 --> 00:20:40.260
All right. So let's move on to the next task. So I think

111

00:20:41.260 --> 00:20:44.660
let's see here. Okay, I think you can so stop sharing your screen.

112
00:20:46.740 --> 00:20:58.860
and then. Now, let's say you want to collaboratively work on an album with another family member. Do you think they would be able to navigate the site and help you out. Why or why not?

113
00:20:59.090 --> 00:21:08.580
And this could refer to like any any website like. For instance, he said, Google photos earlier. I think Google photos they would be able to

114
00:21:10.010 --> 00:21:23.500
have an easier time navigating, because, if I remember correctly, if they Haven't changed the format in the recent years, because I haven't used it for like 2 or 3 years. But from what I remember it was kind of just like

115
00:21:24.020 --> 00:21:35.380
it was. It looked really similar that it will drive. but just for photos. And then there was a big plus sign like in the bottom right-hand corner that and

116
00:21:35.750 --> 00:21:37.260
that to me like

117
00:21:38.540 --> 00:21:48.930
it seemed easy to find, and it kind of like made. I use common sense and be like, okay, like this means like, add and all it not like out of it. But for this one

118
00:21:49.150 --> 00:21:54.920
might snapfish. You had to look for AD photos, and then you had to sign in.

119
00:21:57.090 --> 00:22:09.520
and it more just seemed catered to like. find prints that you uploaded organizing. Yeah, like Google Photos, I think, still beats that in terms of like.

120

00:22:10.910 --> 00:22:25.430
I think Google photo is like it's little. Only purpose is to keep your photos there. So just like having that big plus sign was like, okay, like that's what I fl to add my photos into it.

121
00:22:25.450 --> 00:22:39.580
So do you think, like another family member like second older one like they would be able to easily like enough gate photos. so I think they would easily have

122
00:22:39.900 --> 00:22:50.250
navigated it in terms of adding photos. But anything else it'd be like difficult. Yeah, like if they wanted to like. Look at it, because I don't think is like.

123
00:22:50.370 --> 00:23:01.290
does the same as like an iphone where they organize it by year. I think, unless there might be a way. I didn't really explore that. The

124
00:23:02.680 --> 00:23:05.880
because I remember they just put it like average, and then the number.

125
00:23:06.940 --> 00:23:18.590
unless my like family member is like scrolling. Do so. Well, there's not really a search function in Google photos. So there that poses a problem

126
00:23:19.330 --> 00:23:29.460
for an older family member. But Yeah, I mean, I think as long as you tell them how to add the photos, they should have the A relatively easy time.

127
00:23:31.200 --> 00:23:36.130
and then and then. Now we're going to do another sketching this.

128
00:23:42.810 --> 00:24:00.350
Yeah. And then the All right. So for this task i'm going to say like, Suppose you want to organize like albums by like each member of your family. And again like this, referring to, like

129
00:24:00.480 --> 00:24:11.570

the general concept of family against, we found family pets. members, and I just want to ask you to sketch it out how you would sort or visualize members of your family.

130
00:24:18.330 --> 00:24:23.290
so I probably like, have my mom. my dad.

131
00:24:25.520 --> 00:24:28.620
and then maybe like grandparents

132
00:24:32.510 --> 00:24:33.660
like.

133
00:24:34.730 --> 00:24:35.780
and

134
00:24:37.210 --> 00:24:38.860
and then pets.

135
00:24:47.620 --> 00:25:00.230
But it's kind of like the apple search, though, too, where it's like. it just finds like a feminizing person that puts that with long and then like.

136
00:25:01.140 --> 00:25:02.100
And then.

137
00:25:05.430 --> 00:25:13.350
like 2 older people. they have that as grandparents, and then friends would probably like, include me, too.

138
00:25:19.180 --> 00:25:21.570
So we just feel like any type of animal.

139
00:25:24.930 --> 00:25:38.910

Yeah. So you would kind of like, Imagine this like interface is just like a whole bunch of like. Oh, I see. like kind of how you view your context, right? So it's like up the bar, and then it just goes down like a list

140
00:25:39.580 --> 00:25:40.440
kind of

141
00:25:44.960 --> 00:25:47.610
how would you think they're going to be squares?

142
00:25:48.640 --> 00:25:50.700
Maybe some sort of tree?

143
00:25:54.200 --> 00:26:02.170
I mean, what's coming to my is like of like a square. If like. cut my phone.

144
00:26:04.470 --> 00:26:09.330
and then underneath it would say, like Mom. is it like

145
00:26:13.010 --> 00:26:15.920
you? It I like.

146
00:26:20.300 --> 00:26:32.630
like. Yeah. And then just the clear and fly like your quick grandparents. Right? Do you think you would ever make a separate album for each godparent, or like? Just naturally you would just group them together, and

147
00:26:32.910 --> 00:26:34.610
together, because.

148
00:26:35.670 --> 00:26:37.320
like already, it's like.

149
00:26:38.610 --> 00:26:40.110

And then.

150
00:26:41.680 --> 00:26:51.440
so you would say, like the groupings would make it more easier to like, Organize your family albums. Yeah, because also to like, I don't take many photos of my it's.

151
00:26:52.720 --> 00:27:04.260
And so I think it would just be tedious if I had like one label like Grandpa. and I have like 2 photos in it. And then, like grandma and I had like 4 photos, right? So that would just like help

152
00:27:04.800 --> 00:27:15.130
all of them in one, because, like I know, there's going to be photos of both of them individual, but also like together, and also just like family voters of us with them.

153
00:27:17.730 --> 00:27:30.750
And so now I'm going to put me to another sketching task to a new page. Okay. So now i'm

154
00:27:31.460 --> 00:27:37.290
going to give you the scenario. So say you want to write a biography for one of your family members.

155
00:27:38.710 --> 00:27:48.680
Can you sketch what information you would include any family member of your choice, and then you can include anything you like. such as pictures, words, etc.

156
00:27:50.190 --> 00:27:55.300
I would probably do it on my dad just because I spent the most time with him growing up.

157
00:27:59.400 --> 00:28:01.560
I would prob into his age

158
00:28:02.630 --> 00:28:09.090
like the year he grew up in. or a year he was born where he was born.

159

00:28:13.840 --> 00:28:16.540
And then, maybe like also photos over here

160
00:28:17.690 --> 00:28:29.470
at that time. because he grew up in the 50 S. And 60 S. And like, obviously that's like a different layout than us. and that also, like include photos of him

161
00:28:30.380 --> 00:28:32.550
from his like teenage years.

162
00:28:33.780 --> 00:28:47.740
This is my dad, you said one here. So I want to a photo something like that. And then he also plays guitar. So I would probably like show photos of him playing guitar

163
00:28:47.910 --> 00:28:51.230
if that's like. if he has any.

164
00:28:56.880 --> 00:29:01.810
And then also like him with his kids. he has 3

165
00:29:05.800 --> 00:29:09.570
like. and when he married my mom.

166
00:29:15.760 --> 00:29:23.540
and then also about like this job. He's a landscaper. So

167
00:29:25.120 --> 00:29:26.730
just like photos of

168
00:29:28.350 --> 00:29:32.220
jobs he used to do. and

169
00:29:37.300 --> 00:29:38.540
his trucks

170
00:29:40.840 --> 00:29:43.210
because he uses that for work.

171
00:29:46.700 --> 00:29:48.530
and then probably like photos with me.

172
00:29:52.350 --> 00:30:03.610
Nice. So when you're cutting this album you were thinking of. This was kind of like your image of what you would put in like a physical album, or

173
00:30:05.110 --> 00:30:09.430
I heard you say biography. So i'm worth. So, man like

174
00:30:10.690 --> 00:30:27.080
like a like a book. Yeah. Oh, no, yeah, like with text. Yeah. And then like a photo in the middle, it's blaming the A photo somewhere on the page, and that touched underneath it, I see. And then more

175
00:30:27.190 --> 00:30:41.250
Yeah, yeah. sure. So I guess my question to you would be that. Are there any additional options you like to see in like that, like your dad's album that could only exist on a digital platform like.

176
00:30:41.450 --> 00:30:57.180
Would you ever think of adding videos audio recordings? I think you already mentioned descriptions. But yeah, we like aception for like stories, things like that a digital one would be really cool, because then I could like talk with him.

177
00:30:57.220 --> 00:31:03.110
and that would be a really cool event to the like. Keep. you know.

178
00:31:07.460 --> 00:31:09.490
Yeah, Like

179

00:31:10.590 --> 00:31:18.030
talking to him. And And then, like videos. would you ever have videos to it? Or

180
00:31:21.140 --> 00:31:33.380
yeah, maybe okay. all right, and I guess like the main thing would be like all the things they listed out like stories, descriptions of

181
00:31:33.490 --> 00:31:43.570
for any sort of family member, but like, why would these options in particular be important to you. like the digital stuff? How about this one?

182
00:31:50.970 --> 00:31:52.840
Well, okay.

183
00:31:54.550 --> 00:31:57.390
but we can pause here if you'd like to continue.

184
00:32:00.010 --> 00:32:01.540
we could.

185
00:32:08.410 --> 00:32:10.020
I guess, because, like

186
00:32:14.610 --> 00:32:19.580
I think so, just let me know if you want to skip this question. That's.

187
00:32:26.040 --> 00:32:27.240
you know, like.

188
00:32:29.640 --> 00:32:33.100
but like videos, would be cool, because then you get to see like

189
00:32:37.270 --> 00:32:50.770

like daily life, and everybody come in because I think just photos is like you don't necessarily remember what happened in that moment, because for me, like i'll take a photo i'm like, oh, my God! I don't remember what

190
00:32:51.680 --> 00:33:00.010
5 min after it before. and so like with videos, you just like play that the whole thing right? So yeah and

191
00:33:01.290 --> 00:33:06.510
great. And then I also going to switch gears. Now

192
00:33:11.040 --> 00:33:14.070
I think I have a way to rewrite this.

193
00:33:15.100 --> 00:33:26.320
Say, like you had to upload an album online. Would you already have an album ready? Or would you think you would have to organize the photos beforehand

194
00:33:27.250 --> 00:33:40.270
like? Do you think you already have like albums on your phone already? Or I do have albums in my phone that could potentially already be uploaded.

195
00:33:41.480 --> 00:33:42.780
But I don't

196
00:33:44.290 --> 00:33:48.260
like upkeep them regularly.

197
00:33:49.350 --> 00:34:03.900
so there could be some photos, and then that I just don't care about anymore. So you say, like you'd probably have to at them before you like. Yeah, but also like it would be kind of nice if I just upload or not a book, but like.

198
00:34:05.730 --> 00:34:16.270

organize and manage some while uploading. you know, like if I had my phone hooked up to my laptop, or whatever right and like

199
00:34:16.389 --> 00:34:36.409
my entire photos, were there. and I had just so once. I want it to go to the uploaded. So you like kind of the selection system. Yeah, like the iphone, right? So you have like clicked and choose which one. So you'd rather not. That's like upload a whole album you'd rather like go through each photo and select which ones you like to include.

200
00:34:37.560 --> 00:34:40.130
I just think that

201
00:34:43.889 --> 00:34:49.010
I don't know, like if i'm going to do if i'm going to organize whatever elbow.

202
00:34:51.409 --> 00:35:04.250
Then if I could upload through the phone that'd be fine. Okay. But i'm gonna like, if the only way to upload is through like a laptop or something. and then I have to like, organize on my phone

203
00:35:05.070 --> 00:35:17.050
and then translate: yeah, it's just like. So it's the same amount of work, but I just think it would make more sense to put it on. Have both steps

204
00:35:17.130 --> 00:35:30.490
on a single device that it was like the mobile mobile would be nice. Yeah, because i'm not very computer savvy. So

205
00:35:31.920 --> 00:35:45.070
yeah, it's just like you have, because you also have to like. get a connecting thing to do it with the laptop. Yeah. So Mobile is like just so much easier.

206
00:35:47.080 --> 00:36:01.990
All right. So we are done with the activity portion. So. No, I just have some extra questions for you, so we'll just start with kind of like on the subject of searching for family memories.

207

00:36:02.010 --> 00:36:13.510
so I guess I want to ask like. how often do you look back or add on to your family memories?
Let's start with the first part, like Coffin. Do you look back on family memories.

208
00:36:14.070 --> 00:36:16.420
not the of well

209
00:36:19.740 --> 00:36:31.400
recently. Not that often i'm so busy. But I do look back, especially like when one of their
birthdays is coming up, or something

210
00:36:31.710 --> 00:36:32.990
or

211
00:36:36.590 --> 00:36:39.150
yeah, I tend to look in my photos

212
00:36:40.180 --> 00:36:48.890
like just a pass of time, but more often than that, i'm not. I don't go to my photos to like, look for
family members if that makes sense.

213
00:36:50.950 --> 00:36:59.410
Thanks. So, then I was like, how often do you add on to your daily memories and make those
things like that.

214
00:37:02.710 --> 00:37:06.990
I take photos a lot of my family at France. But

215
00:37:08.080 --> 00:37:09.070
you asked.

216
00:37:10.830 --> 00:37:24.470
How often do I add it to it. I guess, like they'll count like just kind of how. Yeah. I mean, I don't
make it a habit to be like oh, I have to like. Add to this elbow, or I've got like I had to take a photo
to add to the I kind of just

217
00:37:25.220 --> 00:37:33.800
take photos. Yeah, that I feel it's like, oh, like this is cute, you know. but it's not more so like, oh, I need a photo like

218
00:37:35.230 --> 00:37:48.620
this person with this friend, you know. Okay. So then, another question would be, what information would you want to include in your family memories? And let's say, like Theoretically, this would be in

219
00:37:48.750 --> 00:37:54.070
in online space Definitely, the date and

220
00:37:57.650 --> 00:38:11.500
location would be nice. But I don't really here because most of the times like I know where I took the photo, but it's more like when like.

221
00:38:11.540 --> 00:38:25.400
But Dad took the photo. I do like the live photo thing that apple has, because it's kind of like a Mini video. Because, like, if you take just still photos, you're like, oh, like

222
00:38:26.120 --> 00:38:35.850
like what happened after, you know, and with the like like apple life photo you can kind of just see like a little step it. So I was going to agree that that's really cute.

223
00:38:37.740 --> 00:38:38.450
Thank you.

224
00:38:41.030 --> 00:38:54.140
Let's see. Would you ever consider like I mean, stories are little like tech exhibits like to your memories. You think it. Would

225
00:38:54.750 --> 00:39:07.690

you think it would be a chore to AD? Or would that be something I want to add to like every photo I mean certain photos. don't you, too, if the option was there, it I wouldn't mind it. But if it was like

226
00:39:09.900 --> 00:39:26.550
place. a necessity like I know, like some some apps they might like. Have you take the photo, and then you have to like log something that yeah like in order to save the photo or something that could be kind of tiresome. But it feel like Nice is like

227
00:39:26.950 --> 00:39:32.160
you took the soda ready. and then you have white lines. and then.

228
00:39:34.730 --> 00:39:37.290
like an edit option to.

229
00:39:38.290 --> 00:39:49.370
and it's just like it's there whenever it is. but not like required. Yeah, not like you. Take the photo. and then you want to upload it.

230
00:39:49.510 --> 00:40:02.140
and then they're like, oh, like, write a text like, if i'm just like it's just a photo of like the sky like it's a photo of the sky like. because most more often than that, I might just put like

231
00:40:02.420 --> 00:40:14.560
random letters. but like if it's like meaningful photo, and I want to put test that be nice. I think it would only but like I would only think of it. It's like

232
00:40:14.910 --> 00:40:16.760
required. Okay.

233
00:40:17.940 --> 00:40:27.600
good, then. And then my other question would be, what usually pops you to add something to your family memories

234
00:40:29.990 --> 00:40:37.320

like what is kind of like your motivation when you record something to remember it. you know.
Like

235
00:40:38.400 --> 00:40:43.280
to remember. Why did the one may not lie to the

236
00:40:44.400 --> 00:40:52.700
just to I like the day or where we were at during that day for that specific time.

237
00:40:56.850 --> 00:40:59.170
Yeah. okay.

238
00:41:00.210 --> 00:41:17.450
And then my other question would be. What do you do to search for old photos? And this could
be digital or physical. physical? I don't search. I kind of just put in a pile of digital, though, like if
it's on my phone.

239
00:41:17.980 --> 00:41:30.420
there's like a search thing in the apple photos where you can kind of just play the jack of all time,
like cat or dog. I sort of talk a lot. so would you say, like

240
00:41:30.440 --> 00:41:42.480
you're not really searching for moments. You're just always searching like a subject. Yeah, the
subject, I mean, the moments would be like I could just go through the year or the months,
because I know that apple also has an option.

241
00:41:44.140 --> 00:41:47.000
But yeah, well, I'm kind of searching for a photo

242
00:41:48.980 --> 00:41:58.500
or a video. Videos are hard because they don't do that thing. Their videos. but photos, I'll just
look at the subject. and then

243
00:42:00.680 --> 00:42:18.260

I should somebody. I'll just like, go through each. Okay, here. all right, then. And then when you go and look back on photos. Who do you particularly search these photos, for for example, with yourself? Others, classmates like, Are there just right reasons for it

244
00:42:18.290 --> 00:42:30.330
I may need. I don't really search frequently, but when I do i'll look for like my dog or Lily. because

245
00:42:30.630 --> 00:42:33.960
Lily has Lily and I have a lot of photos together.

246
00:42:38.480 --> 00:42:49.670
Yeah, it's my my dog or Lily, or in my cats. Yeah. So you say, like most of the time, it's kind of like, just for yourself, to be like a sense of like comfort.

247
00:42:51.960 --> 00:42:56.850
Yeah, or because Lily and I did something stupid, and I go back and look at it

248
00:42:58.930 --> 00:43:14.520
all right, then. So now we're going to go into a section about kind of like difficulties you could possibly face. So first is like. what kind of difficulties do you face when searching for a specific photo or video

249
00:43:16.090 --> 00:43:33.650
video videos are hard to search for because it's not like a still image that apples like software can detect, you know. But most of the time, like the videos I take are grouped so like.

250
00:43:34.170 --> 00:43:40.080
because I mainly type like, take videos of concerts or videos are like.

251
00:43:42.020 --> 00:43:57.190
I take videos on Snapchat, so i'll just look at like the dates of when I took those videos, or like. if there is a significant every of a date, and they're like, oh, I really want to do this video. Then i'll do something. I'll be like

252
00:43:57.360 --> 00:44:05.000

the general timeline of when that video is taken, and i'll just search you or elsewhere to like each video. But for photos.

253
00:44:08.700 --> 00:44:10.400
some difficulties.

254
00:44:12.280 --> 00:44:25.950
If you can't think of anything That's okay, that just wouldn't see it out there a little bit difficult. Yeah, it's not super difficult. It's mainly like just the videos. It's mainly the videos. Yeah. But for photos like

255
00:44:26.590 --> 00:44:37.200
sometimes Apple doesn't pull up the photos like I don't know just because it can't detect what's in it. But shows like, if I take strange shots right, I take screenshots to like.

256
00:44:38.240 --> 00:44:51.800
remember a text, or like an event that's on Instagram or something. I don't think like applicant link. look up text. And okay, yeah.

257
00:44:52.240 --> 00:45:05.580
let's see. So how would your experience be like if you Haven't consulted another family member for like memories like any physical photos.

258
00:45:07.750 --> 00:45:19.740
How are yeah, Like if you thought of something like specific. Oh, that'd be so hard. That would be like that's just especially my dad, if he takes photos of like

259
00:45:21.360 --> 00:45:42.090
like I. So I swear to you like we have like 4 digital cameras, and it's just like it's banding over like the years of my life, and then I also grew up in the like age of Vhs, so he would record everything on Vhs when I was little girl, or like, when my brothers were little.

260
00:45:42.520 --> 00:45:45.860
and you have to scrub through that footage like

261

00:45:47.270 --> 00:45:58.310
by minute, because you can't find anything like you can't search on. Vhs: right? So there's that. and my family takes tons of photos.

262
00:45:59.090 --> 00:46:11.950
but not digital. They take office well when they used to take a lot of photos they would do physical. So they're all like actual, like film photos developed. And there's just boxes of

263
00:46:12.100 --> 00:46:18.430
So it's like at that point. I'm just like. yeah, there's a photo somewhere. But

264
00:46:21.120 --> 00:46:32.930
okay. yeah, and I guess, like another question be is like, do you think at some point you would ever want to transfer all those physical photos to an online platform.

265
00:46:33.330 --> 00:46:36.000
whether it be a hassle that be frustrating.

266
00:46:38.020 --> 00:46:50.950
Or would you just do it to like kind of have them in a place, or would you? But I don't think I would do it at all, because I have them on like If there was a time or like a day.

267
00:46:51.490 --> 00:47:02.900
We just like any time in the future where I miraculously like, have these all of these photos in possession, and they're just in boxes.

268
00:47:04.630 --> 00:47:06.280
I have no

269
00:47:07.690 --> 00:47:18.910
reason to like. Scan each one. or like, take a photo of each one and upload it, just because, like one, there's so many. and to like

270
00:47:20.630 --> 00:47:32.580

2. I feel like they're already safe. If I just know where they're at, you know, like if I have the boxes, if I have them organized in a box or a couple of boxes, and I know where those boxes are.

271
00:47:32.850 --> 00:47:47.890
I'm. I'm fine like I would probably make copies of my you know family that was one of them. But like if anything that you'd be more concerned over like. maybe like a key childhood photo like maybe something

272
00:47:47.950 --> 00:47:52.080
like one funny really like. Would you ever consider scanning that one photo?

273
00:47:55.200 --> 00:48:07.970
I have scanned some baby photos of me. but one that was like mainly for like school, you know, like if you need like a senior photo, like if they did like a before. And now so I scanned a few of those.

274
00:48:08.460 --> 00:48:22.290
and to. I stand a few photos of, like my dad, and I like my aunt, my grandpa and I just because I was like oh, he's cute. I don't know when i'm ever going to see this photo again, because it just I do it back to my dad and goes back to the box. So

275
00:48:22.320 --> 00:48:30.740
I mean, if there are like a few photos that I like, then yeah, I could scan them. But at that point I do just like scan it on the phone, and I just screenshot that.

276
00:48:32.440 --> 00:48:34.150
All right, then. And then.

277
00:48:35.610 --> 00:48:44.480
my final question being, Have you ever lost a family photo or a video that you wish you could revisit, and this could be physical or a digital?

278
00:48:46.110 --> 00:48:57.780
Oh. but yeah, there's been so many. How did you think like it got lost? Just well physical, would be just

279
00:48:57.920 --> 00:49:01.450
lack of organization. and

280
00:49:02.490 --> 00:49:07.410
my dad's digital

281
00:49:10.250 --> 00:49:21.680
embarrassing. I lost all of my I lost all of my Td parry concept videos on my ipod touch, and it was because I forgot my passwords.

282
00:49:21.700 --> 00:49:36.950
and it disabled my I pause. and I I was 8. I didn't know how to back up my photos to the cloud. So those who just lost and i'm just every day I was so bad, because.

283
00:49:37.050 --> 00:49:45.080
like I think that was like the first concert I ever went to with my dad. Yeah. So it's like, yeah.

284
00:49:46.780 --> 00:49:48.550
So yeah, okay.

285
00:49:49.810 --> 00:50:02.320
thanks. And now let's get to some other questions, and then we will wrap up a second. So do you think you would care about keeping track of sailing

286
00:50:02.380 --> 00:50:15.530
here and entire family tree, like literally like including your ancestors, like everyone? Or would you just like to keep them like keep track of members? You feel are more important to you.

287
00:50:15.800 --> 00:50:29.600
You mean like photos, or like lineage, like knowing who my ancestors like lineage and photos, so like, say, in case like your daughter, your mom, like they have funds or grandparents, or the parents of their parents.

288

00:50:30.110 --> 00:50:35.710
You ever be interested in keeping track of something like that? It would be nice, I mean.

289
00:50:37.210 --> 00:50:49.950
I think, once you get into like the triple-great-grandparents. You're like, okay, They're just people I don't know but like my mom, like I I think I've seen like one photo of

290
00:50:50.250 --> 00:51:00.300
her dad, which is my grandpa. and it's not even a photo like it's like a like those paintings. Oh, yeah. So

291
00:51:01.770 --> 00:51:13.730
I I really had never seen a photo of him. and it's kind of sad because I never met him because he died. I guess he died. I don't know my family is really like secretive, but oh.

292
00:51:14.510 --> 00:51:26.390
so I guess, like it would be like kind of nice to know at your lineage. But would you ever keep like photo albums if I remember. say in that image.

293
00:51:28.550 --> 00:51:33.420
So because then it would just be a lot of work.

294
00:51:36.060 --> 00:51:48.340
Would your parents be interested? My parents? Would my dad definitely, because he's always trying to. What is that? You know his grandparents, and he's really interested in like

295
00:51:50.310 --> 00:52:01.550
like our ancestry, because apparently we have, like native American blood and the Spanish coat of arms. So he's a real big history buff.

296
00:52:01.780 --> 00:52:06.280
So he like he just come. He's a guy who just really wants like

297
00:52:07.860 --> 00:52:10.480
keeping everything. Okay, yeah.

298
00:52:11.900 --> 00:52:23.220
And all right. So now we're just going to wrap up. I guess, like, do you have any additional thoughts on this discussion? Do you feel like he was engaging

299
00:52:24.120 --> 00:52:27.300
this? It was engaging.

300
00:52:29.360 --> 00:52:32.650
Yeah. I mean, if this was.

301
00:52:34.040 --> 00:52:48.920
and I want to sound mean. But I think if you were making some sort of application to combine total organizing. and then also like attracting lineage

302
00:52:49.360 --> 00:52:56.570
That' be just a crazy website. It'd be cool. But I think

303
00:52:58.120 --> 00:53:03.190
those 2 ideas, or to like

304
00:53:05.270 --> 00:53:15.850
2 goals cater to very different people. so you would say, like keeping track of photos, and then like keeping track of lineage

305
00:53:16.080 --> 00:53:30.110
like you wouldn't want to store your photos in a place where you would also be keeping track of your it. Yeah, because then I think it could. I mean it could be run on one website, and you could just have like 2 hyperlinks.

306
00:53:30.670 --> 00:53:40.810
So you kind of just prefer like an interface where it's like you keep track of photos, but like just to people like you would call like your news like family circle.

307

00:53:42.790 --> 00:53:55.860
Oh, well, if i'm uploading my photos, I, and want people to see them just for your private yeah, like, if it's me uploading photos in terms of storage

308
00:53:56.060 --> 00:54:04.640
that I would just want me to have access to those photos. You wouldn't want it to be like a social media. No, but if it's like a lineage thing

309
00:54:06.360 --> 00:54:17.320
that's also stuff I like to keep. I'm just not really like a whole lineage person. I'm very private. It was like something

310
00:54:17.670 --> 00:54:34.490
on your dad, so he's like Well, he's also very private, but he's also he's also 60, so I don't think he would want a social media platform, either with the hope, because then, if you did, the whole lineage thing, and you made it into something social media.

311
00:54:34.770 --> 00:54:50.340
It's kind of like Facebook. Yeah. And I think lineage it just would be nice to like. Have photos record. Yeah, I have that record and look back on. I think if it once you start getting into the whole whole life. Oh, like, look who's

312
00:54:50.410 --> 00:55:09.090
related to this? And it's related to that person you like I like in an industry. Com: yeah, exactly. And I know, like I the All right then. So I've been asking you a lot of questions. Is there anything you want to ask me before I need a book today?

313
00:55:09.940 --> 00:55:21.210
Okay. all right. Thank you so much for your input. I'm really grateful for all this sink

314
00:55:21.480 --> 00:55:32.340
information you gave me your insights. It was really helpful.
